Dear Eric,

You can imagine how hesitant we were having padded pews stripped and refurbished. Some of our parishioners were upset about removing the padding however, as you know, it was a housekeeping nightmare. We were a bit hesitant ourselves....hoping that all would go well and the pews wouldn't look like they had padding removed. I am so happy to report that your company did such a fabulous job, our pews look brand new.

We particularly appreciated your working within our plan of refinishing one section at a time so that we did not have to move Sunday Masses to a different location. Once the job was completed, we did have a few issues that we reported to you and they were remedied immediately. You and your team were professional and very cooperative.

With appreciation for a job well done,

Rev. Olin Mayfield
Pastor
