Eric Voorhees  
Worship Interiors Group

Upon the recent completion of our re upholstering project, including over 250 units of pew chairs and communion railings, we are extremely satisfied with Worship Interiors Group.

Beginning with our first contact, the entire bidding, material selection, and scheduling process, was handled with clear and prompt communication, in a highly professional manner.

Once the craftsmen began the work onsite, they were totally focused on a high quality result as well as accommodating our daily schedules. There was extra effort on their part to handle some additional items, beyond the initial scope of work.

There was no disruption of our Sunday services during this process, and the work areas were left spotless.

Worship Interiors Group has given a major upgrade to our worship space, and we are fortunate to have selected them for this project.

The St James community thanks you for the terrific customer service and the high quality end result!

Scott Kennedy  
St James Episcopal
