Der Eric:

This letter is writtren to thank you and your organization for the great job that you did in restoring our church pews. The entire process went flawlessly and the quality of the work was excellent.

Several of the pews were broken in places and after each pew was thoroughly examined, work was done on the broken pews to make them like new. The new foam padding appears to be of a much better quality than the padding orginally installed by the factory. The new fabric is a much higher quality than the original.

After the wood was carefully cleaned and the pews were reassembled, they were newly anchored to the concrete floor. All of the work was done professionally and on time as stated in the contract.

I would like to take this opportunity to thank you for a job well done. If you should like a recommendation please feel free to use this letter with any future business that you might generate.

Thanking you for assisting us in our pew restoration project, I remain,

Sincerely yours,

James W. Fell, Pastor
